

Arden Lodge, Solihull

Domestic multi-use games area (MUGA) for basketball, hockey, tennis and netball

bradleys

SURFACING SYSTEMS

A family in Solihull contacted Bradleys Surfacing Systems about a small area at their property they wanted to convert into a MUGA to train on all year round and in all weather conditions. The space was just 116m² and the family specified the space was required for a variety of sports including basketball, netball, hockey and football.

The surface needed to withstand a lot of footfall and play, so TigerTurf's Evo Excel was chosen as a great multi-sport product, offering optimum performance characteristics and playability. A base colour of green was used for the surfacing with three accent colours in yellow, white and blue for the line material.

As part of the works, Bradleys installed drainage, a stone sub-base, porous macadam, paving, synthetic turf and a heavy-duty timber fence.

The family can now make use of the surface all year round and improve their sporting skills.

Client
Private household

Area
116m²

Scope
New drainage
Stone sub-base installation
Porous macadam
New paving
Synthetic turf installation
Heavy duty timber fence
