

The Mill, Cornwall

Domestic tennis court installation

bradleys

SURFACING SYSTEMS

During July with Wimbledon in full swing, the Bradleys team carried out a number of domestic tennis installations throughout the country. One of these installations was the refurbishment of a private tennis court for a family in

Cornwall, which included repairing root damage, installing new raised edges, new tennis sockets, posts and nets and the installation of basketball hoop. The surface chosen was TigerTurf's Advantage Pro synthetic turf; the most

advanced and durable tennis surface. It's perfect for this type of installation as it's one that players of all ages and experiences can enjoy. The team also installed line markings for basketball and 5-a-side football for multi-sport use.

Client
Private household

Area
520m²

Scope
Repair root damage
New edging
New tennis equipment
New basketball equipment
Synthetic turf installation
Line markings for tennis, football and basketball
