Looking for a new synthetic surface at your tennis club...but not sure which one to choose?

Bradleys Surfacing Systems has searched the market for the best products so you don't have to.

At Bradleys we understand that for club chairmans and committees, sourcing the right tennis surface can be a real challenge and lengthy process. With so many products on the market with different applications, it's often difficult to know which surface to choose.

As part of the service provided by Bradleys, we've searched the market for the best products in terms of quality and assurance and compiled a brief review overleaf in order to assist you in the decision making process.

SYNTHETIC CLAY

Matchclay

Matchclay closely replicates a natural clay court surface with its slow pace, high bounce and spin responsiveness mimicking the feeling of playing on a natural clay court, but without the high maintenance requirements. It has an inbuilt cushion layer to reduce fatigue.

Manufacturer Playrite, UK

ITF rating ITF category 1 slow

Guarantee 5 years

SYNTHETIC CLAY

Clay Court Pro

This textured surface is designed to replicate a clay court, both in appearance and in playing characteristics. There's been a lot of interest in synthetic clay court over the last few years, with popularity increasing.

Manufacturer TigerTurf, UK

ITF rating ITF category 2 medium-slow

Guarantee 12,500 hours of play

SYNTHETIC TURF

Tennis Ace

New for 2015, Tennis Ace is a 20mm pile height, monofilament synthetic turf surface. Guaranteed for 12,500 playing hours, this is a hard wearing product, suitable for all ages and abilities.

Manufacturer TigerTurf, UK

ITF rating ITF category 4 medium-fast

Guarantee 12,500 hours of play

SYNTHETIC SURFACE

Matchplay 2

Good grip, durability and available in a wide range of colours – Matchplay 2 makes a great choice for any club. It's low maintenance and has excellent drainage performance.

Manufacturer Playrite, UK

ITF rating ITF category 3 medium

Guarantee 5 years
