SURFACING SYSTEMS

Synthetic turf surfacing for outdoor classroom and prayer garden

Based on substantial grounds, St John the Baptist Catholic Primary School houses a large playing field, forest area and additional outdoor learning areas.

Bradleys Surfacing Systems was approached by the school to transform a tired and unused area into a vibrant outdoor space. The project involved the clearing of an otherwise unused courtyard in the school, levelled with a Playrite's 30PB synthetic turf surface on a Playrite 1500 shock pad.

The brief also involved the construction and installation of an amphitheatre style outdoor classroom, prayer garden and friendship benches to reflect St John's caring reputation. Specialist drainage solution, Permaplay was integrated into the installation process to the lower section of the outdoor classroom to promote excellent drainage.

"Our vision and brief was clearly translated by Bradleys Surfacing Systems and we couldn't be happier with the finished result."

Ian Gallagher, Headteacher

Client

St John the Baptist
Catholic Primary School

Area

208m²

Scope

Clearance of area
Levelling of base
Construction of outdoor
classroom
Construction of prayer
garden
Shock pad installation
Synthetic turf installation
