

# Rushall Centre, Walsall

## Car park extension and construction of outdoor landscaped seating area

The Rushall Community Centre in Walsall is managed by Manor Farm Community Association – a local charity that has been providing services and activities for the people of Rushall and Walsall for over 35 years.

Bradleys Surfacing Systems has been regularly involved with helping to improve the facilities at Manor Farm Community Association and with a grant of £72,378 to put towards their site improvement programme, Manor Farm brought in Bradleys to extend the car park by 396m<sup>2</sup> and install an integrated drainage system.

The team also constructed a 135m<sup>2</sup> landscaped seating area, including raised flower beds and wall to enclose the area, which includes porous resin bound aggregate surfacing and brick wall surrounds. The gravel footpaths also allow access to an area of newly planted trees.
