

Manor Farm Community Association, Walsall

Conversion of unused tennis courts into a state-of-the-art 3G surface

bradleys

SURFACING SYSTEMS

In 2015, Bradleys installed a Multi-Use Games Area at Manor Farm Community Association and returned to the facility a few years later to carry out their largest contract to date.

The charity had benefited from over £235,000 worth of funding to dramatically improve the landscape of the former derelict facility and appointed Bradleys as the main contractor to convert four old unused tennis courts into a flood-lit state-of-the-art 3G facility for football use.

The new sports facility will be used extensively by a variety of local football clubs, including children of all ages and sexes, as well as the ever increasingly popular walking football for the die-hard Bobby Charlton's of Walsall.

Client
Manor Farm Community Association

Area
2600m²

Scope
Porous macadam
Ground works
Synthetic turf installation
LED sports lighting system
Twin bar fencing system

"For many years, our association has offered a range of local activities, resources and services to the community who live, work and play in the borough of Walsall. It's fantastic to have received such a substantial amount of funding to improve these facilities and we thank the trusts and Bradleys Surfacing Systems hugely for enabling us to do this."

Gary Bird, Chief Executive
